

Superintendent's Message

Walter R. Clemons, Ph.D.

January 7, 2020

Dear Gloucester County Community Members:

I hope that each of you had a wonderful holiday season and I wish you an outstanding and prosperous New Year! I always want to take time to personally thank all faculty and staff, students, parents and the entire community for your efforts. Gloucester County Public Schools continuously strives for excellence in all that we do. School division updates since my last update in October of 2019 include the following:

I would like to congratulate all of the GCPS fall athletic teams and all of our instrumental and choral music programs for their outstanding efforts to date. We are extremely proud of their efforts and look forward to continued success in the winter months in all of our programs. In addition, we have various teachers and students who have received other awards and I want to take this time to congratulate them on their efforts and accomplishments as well.

We are also very proud to announce that Moseley Architects has been awarded the contract for professional consulting services to perform architect/engineering services for the Gloucester High School renovation. It is an exciting time to see what the future holds for Gloucester High School regarding renovation and improvements in which the community can be proud. It is the sincerest desire of GCPS to work collaboratively with all community stakeholders in providing the best educational programs and facilities for our students in Gloucester County. We will keep the community informed as we move through this process

Finally, we are at the time of year when we will be developing the Division's operating budget for the 2020-2021 school year and I encourage your input and support. It takes all of us working together which makes Gloucester County Public Schools one of the top school divisions in the Commonwealth. In closing, I look forward to continuously working with all community stakeholders and I sincerely thank you for your time.
