

GCPS Safety Inspection Process

All inspections related to safety will be conducted, as required by the Occupational Safety and Health Act (OSHA), the Environmental Protection Agency (EPA), the Department of Transportation (DOT), the Department of Education (DOE), the Department of Criminal Justice (DCJ), and/or other applicable federal, state, and local agencies.

General safety audits of each facility/building will be conducted by the Health and Safety Manager at least annually. Appropriate inspection forms will be used and deficiencies noted. Items needing correction will be brought to the attention of the building administrator and appropriate work orders completed. The Health and Safety Manager will follow-up to ensure that corrections have been made.

All other safety related inspections will be conducted as required by the governing agency and appropriate reports will be maintained by the Health and Safety Manager and/or appropriate building administrator.

Questions regarding inspections should be directed to your supervisor or the Health and Safety Manager at 693-7549.
